CONSOLIDATED
CLADDING

HELLO

...Consolidated Cladding

WHO WE ARE

Consolidated Cladding is a proudly South African building envelope company.

We specialise in the supply and installation of any type of single skin sheeting, insulated panels and all types of waterproofing applications.

Our roots were firmly grounded in 2021 and stemmed from collaboration between Industrial Linings Natal, JTC Building Systems and Ferrum Trading. With our combined experience and project know-how in various facets of the building industry, we naturally branched out into the building envelope industry.

With more than 35 years' industry experience, together with our hands-on approach, we are in the position of being a market leader in this field.

You guessed it…we know what we are talking about.

OUR VALUES

CARING

We care about turning our client's hopes and dreams into a reality. Your project is very important to us because it is important to you. That is why we aim to deliver the best quality at the right price.

CALCULATED

Every move we make and action we take, from our first interaction with our client to project completion, is calculated – we put thought and effort into everything we do.

VISION

At Consolidated Cladding, we are always looking for ways to incorporate innovation in all areas of our business and to treat our clients with integrity and respect.

MISSION

To ensure that we remain the preferred building envelope partner for all our stakeholders - our clients, their professional team, contractors and suppliers. With our innovative approach, we provide value-for-money solutions.

SERVICE WITH A SMILE ...what we can do for you:

Industrial Roofs

We can install any type of sheeting – from concealed fixed systems to positive fixed residential applications with all the bells and whistles.

Insulated Panels

As an approved insulated panel installer for some of the world's best-known brands such as Kingspan, we have close working relationships with FM approved panel suppliers all the way from Europe to the UAE.

Our 360˚ approach to our projects means that we prepare detailed drawings and BOQs, offer logistical support for imported materials, and we do on-site installations. This means that we will walk with you all the way from inception to completion.

Waterproofing

Consolidated Cladding provides practical solutions to complex waterproofing problems by working closely with our design team to get the mythology and detailing just right. This ensures that we design an end-to-end solution for our clients that is practical, cost-effective and suited to their needs.

WE HAVE EXPERIENCE IN THE FOLLOWING SYSTEMS:

- Torch-on systems
- Fibreglass systems (including polyester and epoxy resin options)
- Acrylic systems
- Self-adhesive systems
- Cementitious systems

READ QUOTE

Client service is at the heart of our business. We pride ourselves in forming strategic partnerships with our clients and suppliers to deliver the best quality at the right price.

At Consolidated Cladding we focus on each and every detail of the project and together with our clients we build projects that we can all be proud of – something that we believe gives us the competitive edge and sets us apart from our competitors.

OUR LAST WORD ...what we have to say:

"Consolidated Cladding fills a glaring gap in the market with our professional/always-on client service and real value for money."

- Toit Oosthuizen
